Forecast for Monday 10 May 2021

Weather: Mainly dry during the night with just a few light showers. Also some fog patches and low cloud in the glens, soon dispersing on Monday morning. Then clouds bubbling up and scattered showers breaking out. A few heavy showers are likely in the afternoon with a small risk of thunderstorms. Showers then dying out during the evening.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Some patches of mist and low cloud later tonight, soon dispersing on Monday morning. Then generally good visibility with occasional cloud cover well up the hills. There will be interruptions to poor visibility as heavier showers pass by with more extensive clouds around 700m. .

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Still a cold feel on the tops with fresh winds and low single figure temperatures. Also a steady thaw of lying snow from higher elevations will lead to some wet underfoot conditions.

Forecast for Tuesday 11 May 2021
Weather: Some bright or sunny spells and further showers. The showers will be prolonged at first, turning more scattered during the morning. Some heavy showers are possible in the afternoon, dying away in the evening.

Maximum wind: Fresh southerly winds, average speeds on the tops of 20mph with gusts 35mph.

Chance of cloud free mountain/hill tops above 800m: 60%

Visibility: Fairly extensive cloud cover at first around 600 to 700m, with patches of poor visibility. Otherwise mostly good visibility with clouds breaking up during the morning. There will be brief reductions in visibility in afternoon as heavier showers come along with clouds again more extensive on the tops.

Temperature: **Glens:** Plus 8 Celsius rising to 15 Celsius
At 800m: Plus 6 Celsius.
Freezing level: Above the summits.
